***Bethlehem-Center Senior  
High School***

***R.D. # 1  
Fredericktown, Pennsylvania 15333***

Here is the spirit . . .

charm . . .

and gentle persuasiveness

of a remarkable woman and great teacher,  
Miss Elsie Channing.

There is no greater tribute we could pay  
than to dedicate our yearbook to her in ap-  
preciation for the high principles she has  
instilled in all of us at Beth-Center.

## *In Memoriam*

PETER J. DALEY

Died January 25, 1969

"When the One Great Scorer comes to write against your name — He marks — not that you won or lost — but how you played the game."

Grantland Rice

"I have fought the good fight, I have finished the race, I have kept the faith."

2 Timothy 4:7

### ALMA MATER

Let us sing the praises  
Of our dear old school,  
Where we strive for knowledge,  
With our guide the Golden Rule.

To you, Alma Mater,  
Loyal will we be,  
And we'll tell our children  
Of your fame and majesty.

As years go by,  
You still will stand,  
Honored and beloved  
Throughout the land.

Always there to guide us  
Through the darkest night,  
Like a light beside us,  
B-C spirit shining bright.

Coaches Bartolomucci, Bernadowski, Connors, and Caputo.

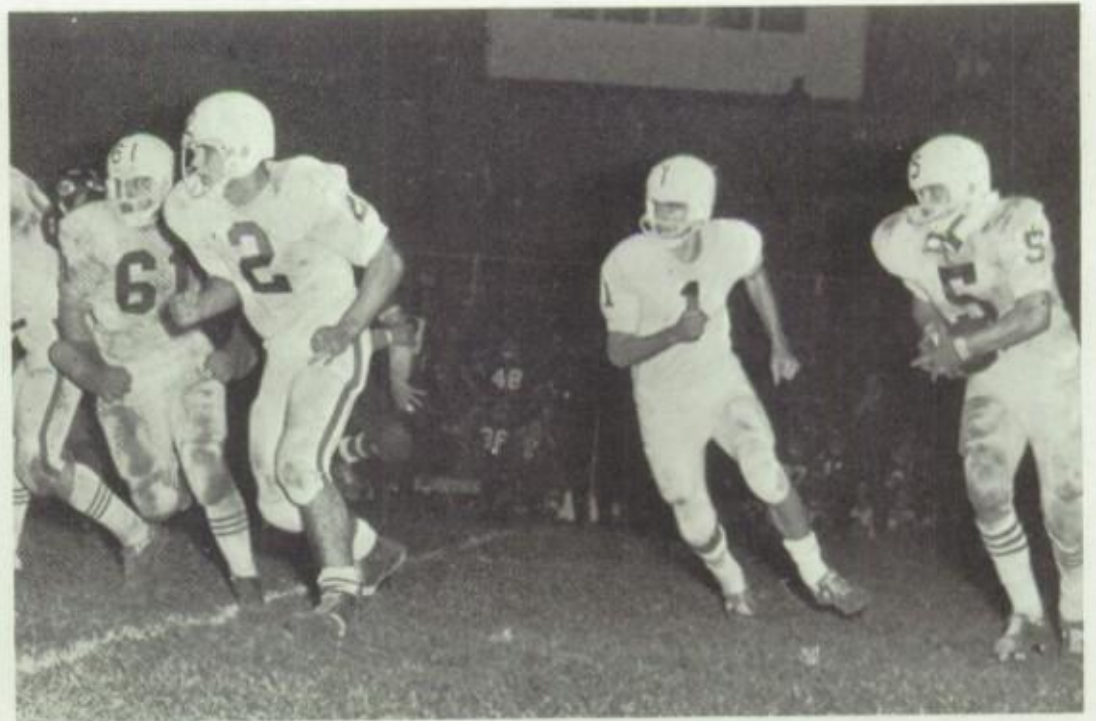

We believe that our 1968 football team was the best ever. We started off the season with an impressive victory over Mon-Valley and although we lost to our closest rivals, Donora, California, and Southmoreland, we finished the season with an excellent record of 6-3. Head coach Bill Connors added a new member to his coaching staff with the arrival of Frank Bernadowski. The boys were well prepared for the season after spending a week at Camp Muffey, W. Va. — one which they never will forget. The spirit and determination that our team showed throughout the season will be long remembered.

Homecoming 1968 was observed on October 4 and 5. The festivities included a football game with German Township. During the half-time ceremony Bernie Abbadini was crowned queen by Jim Scatena, Senior Class President. She reigned during the semi-formal dance held the following evening in the school cafeteria. The attendants included: Sophomores, Anita Muchant and Barbara Zuchowski; Juniors, Marianne Arnoe and Diane Morosky; Seniors; Sharon Peduti and Darlene Gargus. The entire weekend was enjoyed by all and it will remain a very pleasant memory.

## A New Solution To War

Have you ever wondered what Solomon would have done about the Vietnam War? Recall the story? To settle a dispute between two women over who was the real mother of a child, Solomon threatened to cut the infant in half and give half to each of the two women. To save its life, the infant's true mother then relinquished all claim to the child.

If we really wish to help the Vietnamese, shouldn't we leave their land alone, instead of ripping it apart? Even a foster mother would be better for them than integration.

## Exams . . . Good or Bad

"Oh, the English final tomorrow! I've really got to cram tonight!" These words, or words to the same effect, are heard at many a school. And this is exactly what the students do — CRAM. To give the students a chance to express themselves on this subject, a questionnaire was sent to the homerooms for each student to complete. It stated: "Do you think that tests such as the midterm and final do the students any good?" A small but surprising number of the student body said yes, because the test showed how much the student had learned throughout the year."

The majority of the students said they felt that if a student is not able to pass a test given by a teacher over a unit of three chapters, how can he be expected to pass a test over half the book, or even the whole book at the end of the year?

"Study harder," a teacher's response might read. But to find out how they felt about this, I questioned a few of our faculty members. Of the five teachers that were questioned, four were against the tests for the following reason: "It is ridiculous, because the student has to cram and, as a result, nothing is learned." "Not in favor of these tests. We can do without them. They are needless."

Concerning the "you'll have to study harder" aspect, this is good to a certain point. A mind can be made to hold only so much until it either knows nothing or forgets what it has learned.

Many of the schools in our surrounding area have abandoned the idea of these exams. Whether the reason for this was up to the students, I am not able to say; but I think that it should be brought up before the Student Council—that's why we have one. These tests may be fine for some teachers who do not give chapter tests or spot check tests every two to three weeks during the entire year. I feel periodic tests should be given to see then and there if the teacher and or the student have accomplished anything, not once a year or four months later.

Whether these few thoughts are of any welfare to the student probably won't be decided while I am here. But I hope it brings some light, which has been taken

## The Draft

Why is it that none of the critics of the draft system give any thought to abolishing it? They say there should be a lottery, or there shouldn't be students deferments, but they never consider that the whole problem might be unnecessary. Five U.S. congressmen wrote a book on this subject in which they pointed out that, at no extra cost, enlistments could be significantly increased, and that recruiting stations have, on occasions been closed in order to hold down voluntary enlistments. Why hasn't the report been acted on? It would have probably

Dear Editor:

Why must the honor roll students have all the privileges at this school, such as the wearing of long hair, walking around the halls, and talking in class without being reprimanded? They are permitted to bring their cars and the same ones are chosen for the same thing every year, such as Student Council representative, class officer, etc. They are on the yearbook staff and always get their name and picture in the paper. The less intelligent people do not have these privileges. About the cars, when one of these other students

## Letters to the Editor

Dear Student,

The office cannot catch all of the students at all times, but those that do get caught must make the fuss because I can bet that the office doesn't spend all of its time looking for students who don't comply with their wishes. This letter must have been written by a student who abused the privileges of our school.

Editor

Dear Editor:

I have a blunt but sincere complaint concerning the office. I am

quite sure how to put this, but I feel that Mr. Stay ignores problems and questions of the students who do not hold or have a possible position at this school, such as class officer, cheerleader, etc. A few times I have gone to the office to ask a question and I have been completely ignored. Or when he finally does talk to me he makes me feel very uncomfortable at all. The students are told to go to the office if you have a problem, but you do go it doesn't do any good. What should I do?

Needing Help

Needing Help:

There has never been a student who has gone into the office that has been ignored. Sometime if you go into the office during a non-volitional period, you are told to go back into your homeroom because this is where you are supposed to be. Or if you go into the office during the volitional periods it may take a while but you can't expect them to do everything and run to you. Again, it is wished to be known that no one was ignored in the office. Just my turn.

## ONE ICY WINTER NIGHT

It was a cold winter night when I wrecked my dad's car. I had been ice skating with three of my friends. After we had skated for about two hours, we decided to go for a ride. We went first to Brownsville and later to California. In California we drove around for awhile. After awhile a carload of college boys started following us. In an effort to lose them, we drove down a back alley. This was the scene of the wreck. Coming around a turn, I hit a patch of ice. My car just kept going straight and smashed into a tree. My friends and I got out to examine the damage and found that before we could go anywhere we would have to pry the bumper away from the tire. We did this with the jack. Also, we noticed the left front fender would have to be replaced. In the weeks that follow, I began looking for a fender. My friend had one which I bought for five dollars. Then came the hard part. I had to take the smashed fender off and put the new one on. Outside of a few busted knuckles I didn't have much trouble. The worst part about wrecking my dad's car was that I wasn't supposed to be in California in the first place.

## THE BULLDOG CALLER

It is as many as 25 times until the edges seemed to be part of the surface. But today, the miracle of plastic has simplified the process greatly.

One new technique, called hypage, has been developed with an acrylic polymer gloss and varnish. It reduces the varnishing to about two coats and the drying time to about 24 hours.

Some of the handsome new wooden lunch boxes the girls are carrying for handbags lately are reproduced by this craft.

Cigarette boxes, trays, wooden plaques are among other popular items turning up in decoupage. The designs can be almost anything you like from reproductions of museum masterpieces to simple floral patterns. Sometimes the edges are given a "distress" or antique look; others are stained in natural or rich colors to give a simple modern feeling.

Whatever you choose to make with decoupage it can be a

would very much like to know why there are certain students at Beth-Center who are given more privileges than others. There would be a lot less complaining if this situation would be taken care of instead of the privileged few getting away with this all the time.

## GET ALONG WITH OTHERS

Learn to get along with others and do not try to force others always to get along with you. No man can live alone without coming in contact with others, and it is from these contacts that conflicts come. No man is an island. All of us have to know how to get along with others.

It should be quite simple for people to get along, and it would be if all adults were adult, which they are not. Some bodies that are grown-up have minds that are still childish. They expect others to adjust to them and do not

As evident from their record, our basketball team had a rather dismal season this year. Our players worked hard but failed to score enough points to secure victories. Two possible reasons for the few victories might be that the members of the team had difficulty adjusting to a new coach and that they received little support from the students at the basketball games. Our team really has great potential for next year. If the students get behind the team as they have done in the past, I know that when basketball season arrives again, the team will have a commendable season.

**"16" CHAMPS**

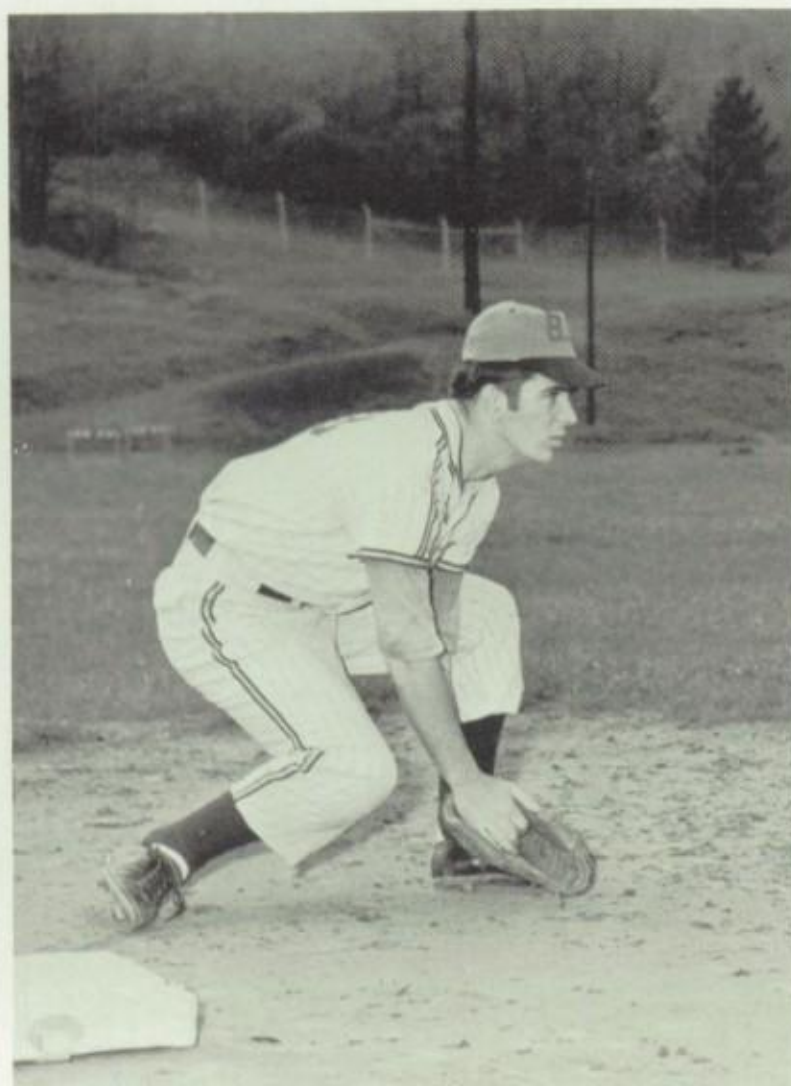

DENNIS SLAGLE — Pitcher

RICK DORAZIO — Centerfield

With outstanding pitching and excellent defensive play, the Beth-Center diamond aces under the guidance of Coach John Sloan were able to win the WPIAL Section 16 baseball championship for the second time in four years. The team was outstanding throughout the season, finishing the regular season with 10 wins and 2 losses. Three pitchers — Slagle, Swinchock, and Micsky were superb in pitching 5 shutouts and compiling 138 strikeouts in 12 games. It was also the fine hitting of Slagle, Micsky, Chiera, and Pagac which helped capture the title. Coach Sloan deserves much credit for his remarkable job in piloting the Section 16 Champs.

### STORY OF THE PLAY

First a much-admired novel by the eminent psychiatrist, Theodore Isaac Rubin, then a screen play by Eleanor Perry from the award-winning motion picture, *David and Lisa* has been adopted for the stage by James Reach. It retells the strange, appealing, and utterly fascinating story of the two mentally disturbed adolescents: David, only son of wealthy parents, overprotected by a dominating mother, who is tortured by his mania against being touched; and Lisa, the waif who has never known parental love, who has developed a split personality and is in effect two different girls, one of whom will speak only in childish rhymes and insists on being spoken to in the same manner. The play follows them during the course of one term at Berkley School, where they have come under the sympathetic and understanding guidance of psychiatrist Alan Swinford and his staff; follows them through exhilarating progress and depressing retrogression; follows them — and their fellow students with laughter and heartbreak and suspense.

ALBERT J. STAY, Principal

You, the Graduating Class of 1969, should not think of yourselves as passing through a frantic interlude between childhood and maturity. Leaving high school you have not reached some place that is an end, a finality. You are too old for some things, it is true; but you are no longer too young for others — that is all.

Upon graduation, every senior has a date with history. It is a time that ushers in the significant period which you have been planning.

If it be true that each new generation is an improvement over the previous one and that this generation is the best informed and best educated, it is my sincere hope, on behalf of the faculty, that we have contributed substantially to this state of being.

Sam.

No the greatest and sharpest boy out of the junior class.

Never forget all our good times together.

No start off: There was our second period Spanish class!! Remember Carlos and Carlota?? And how Miss Matyi used to pick on us. We really were rotten in there. Too bad I'm not in there this year!!

Then there was the Carnival and the football players. Remember that?

Last but not least is the football team and that fabulous Italian number 62!! Thanks to your great football ability, we won all those games!!! I'll never forget those days. Ever!

All I can say now Sammy, is that I hope we can continue to have as much fun in the future as we have been having. Lots of luck in the future and in all that you attempt  
Love,

Charlene
